#### JACKSONVILLE REJOICES AT THE PROS-PECT OF DELIVERANCE.

For the Pirst Day in Many Weeks No Death Are Reported-A Greatly Reduced List of New Cases Correspondent King-Bull Almost Well - Business Resumes and

IMPECIAL TO THE EVENING WORLD. JACKSONVILLE, Fla., Oct. 3.—Only one death, that of Col. J. J. Daniels, occurred in this city from yellow fever yesterday. Two of the three deaths in this city were reported by visiting physicians, and no cause was as signed. Later in the day it was found that the patients had died of other diseases.

The encouragement which our people have been given by this announcement can not be overestimated. This straw of hope has been seized upon with the eagerness of the drown

Not a death from yellow fever has been reported to-day up to this writing, and only twelve new cases. The deaths since July 1 number 265, and the number of persons who have been ill with the disease 2,835.

W. A. Drake, Harry Miner's nurse, who was in a very bad way yesterday, is recovering under a new-old treatment to-day. Dr. Mitchell discovered that he had had a quarrel with his afflanced, Miss Alton, also a New York. rei with his afflanced, Miss Alton, also a New York nurse, and that this was so depressing him that his death would result. The sturdy physician told Miss Alton that unless she "made up" with Drake he would die from lack of motive for living, and she would be responsible. She was obdurate at first, but afterward stole up to Drake's bedside and steatthily kissed his fevered brow. Poor fellow, he opened his eyes, and—well, the result is that he is improved 300 per cent. and as happy as a lark.

Among the many cures and preventives for yellow fever Dr. Nunez de Villavicensia, of New Orleans, brings forward the latest.

He would inoculate well persons with blood or fluid from the intestines of yellow-fever patients. He says that the microbes are vegatable not animal and vaccination under etable, not animal, and vaccination under the skin, he says, practised by him at Pan-ana, is almost a sure preventive of yellow fever.

As at the Anti-Povery meeting in New York there was a small charge for reserved seats, but the receipts from that source were not enough to pay for the gas. The object of his visit was to encourage the United Labor people in Lilinois to put an electoral ticket in the field, something they had determined early in the campaign not to do.

#### Evidence Given that Ite Uped the Mails for Immoral Purposes.

o " Prot." W. H. Clough, the swindler and selfstyled medical expert, who has been in Ludlow Street Jail for the past two weeks charged with using the mails for immeral purposes, was taken before Commissioner Shields yesterday afternoon for examination. He had been brought up on Monday, but, as the prosecution was not ready, he nanded to jall again for another Clough, it will be remembered, is the man who from an office at No. 15 Broadway, where he con-ducted his business under the name of the "United States Matting Company," sent out infamous cir-culars to advertisers in the want columns of The World. Clough could not find bondsmen and has been in jail ever since.
Evidence was introduced before Commissioner Shields yesterday, showing that the "Professor" had sent out his immoral circulars in reply to a decoy letter; that upon receipt of \$1.10 he had sent in return his "law of nature," and that in conversation with Anthony Commicock he admitted that it was he who sont the matter through the mails. The case was adjourned until to-morrow, when further evidence for the prosecution will be offered. Medical experts state that, aside from the immoral character of Clough's business, his pretensions were the rankest kind of fraud. His circulars were craftly worded with an evident intention of evading the law. He was sent back yesterday afternoon to Ludlow Street Jail.

## A Slight Delay on the L Road.

A slight interruption to travel on the Third avenue Elevated Railroad was occasioned last night after 6 o'clock by the blowing out of the winder-head of a locomotive at Twenty-fifth street. The train was bound uptown and was street. The train was bound uptown and was crowded with passengers. The "block signal" was quickly telegraphed along the line, and thus further crowding of trains on a short space of track was averted, the uptown trains being held at or about the downtown stations. Meanwhile another engine was brought down to the disabled train, and it was backed to the Twenty-third street station, where the passengers disembarked and took their chances on the already over-loaded trains which followed. The delay occasioned was about half an hour, during which time the ticket-sellers at the stations below the point of the accident refused to soil tickets to the people.

#### Employees Don't Get Their Promised Reduction to Eight Hours' Work. About six months ago the trainmen on the

## M'QUADE NOT DOWN YET.

#### LEGAL RED TAPE DETAINS HIM STILL AT SING SING.

The Full Text of the Court of Appeals Decision Not Received This Meraing-Two Principal Grounds Upon Which the Opinion Was Founded-An Objection to the Usual Boodle Bail.

Ex-Alderman Arthur J. McQuade will not loff the prison stripes to greet his New York

friends to-day. The reason is found in the fact that the remittitur from the Court of Appeals, reversing the judgment of conviction which placed him in Sing Sing two years ago, has not been returned to the County Clerk of this county. Until it is so filed and a motion is madmaking the judgment of the Appellate Court that of the Supreme Court, no motion to admit McQuade to bail can be entertained.

The remittitur is expected to-day or to-morrow, and as soon as it arrives Gen. Tracy, McQuade's counsel, will proceed promptly to secure the ex-Alderman's release.

Concerning the amount of bail which the Court will probably fix, Gen. Tracy is of the opinion that it should be nominal in the case of McQuade.

It has been the custom of the Court in

of MuQuade.

It has been the custom of the Court in these boodle cases to fix bail at \$40,000. McQuade's counsel is of the opinion, as a majority of the jury on his first trial was in favor of acquittal and his conviction was secured only through error, that, considering the prospect of his eventual acquittal, such excessive bail ought not to be demanded.

The full text of the opinions in the Court of Appeals has not been received by either the District-Attorney or Gen. Tracy as yet, but it is learned that the decision of reversal was passed principally upon two grounds:

the District-Attorney or Gen. Tracy as yet, but it is learned that the decision of reversal was passed principally upon two grounds:

First, the admission of evidence of admissions, or acts of McQuade's alleged co-conspirators, after the conspiracy was accomplished, such as testimony relative to the dight of Moloney, De Lacey, Dempsey and Sayles to Canada.

Also, upon the method adopted in selecting the jury. The particular objection of the defense was that after the jury-box was once filled and the jury-had been accepted as satisfactory by the prosecution, the people could not renew their right of peremptory challenge. In this objection the defense is sustained.

This decision with reference to the order of challenging jurors is peculiar in that it is a practical reversal of the decision of the General Term of the Supreme Court in the case of Carpenter, the wife nurderer.

In that case, Recorder Smyth refused to allow further challenges after the jury had been accepted, and his decision was reversed.

In the McQuade case he allowed every latitude in the matter of challenges, and again he is reversed.

Since Mr. Snell's departure the woman has seldom been seen out of doors. Her poultry was neglected, and she has seemed demented, wearing a haggard look for days.

Mrs. McDowel, a neighbor, visited her yesterday and found all the doors fastened, but succeeded in gaining an entrance through a window. Mrs. Snell showed fight, but Mrs. McDowel soon calmed her. #### Every Person Arrested for the Whitnehapel Murders Proves His Innecence. [SPECIAL CABLE TO THE EVENING WORLD.]

London, Oct. 3 .- The last arrest in the Whitechapel section was of a crazy man, on whose cont were a number of blood stains. His innocence of the murders was soon established. Not a person is in custody, all who have been arrested having proved their good character. There was nothing even on which to hold the tall man with a dark beard, who wore an American slouch hat, who, it will be recalled, was regarded with so much suspicion by the able

Coroner. At the inquest on the body of the woman found off Berners street Sunday morning s sister stated that at 1.20 Sunday morning she heard kisses and a sound which she thought was made by a person falling to the ground. She was convinced that her sister was dead and upon visiting the Morgue positively identified the body. She lives in a house several miles from Berners street. The murler must have been committed before 1 o'clock Sunday morning.

The tocality in which the decomposed body of a woman was found yesterday is one of the most populous and respectable parts of London. Thousands of people pass through the various thoroughfares daily; but at night the streets are considerably deserted, and there is much danger along the Thames Embankment

#### SARAH BURKE'S WEDDING ONLY POST-PONED FOR A NIGHT.

Her Martin Judge and Herself Stood Before Father O'Callaghan at an Early Breakfast Hour-A Youthful Brother Who Had Strong Objections to the Match for Household Rensous.

If there is any truth in the proverb about the course of true love never running smooth then the love of Sarah Burke and Martin Judge is the genuine thing. Last night, at the hour when Surah had hoped to be plighting her blushing troth to her young Lochinvar, she stood with tears in her bright eyes before Sergt. Lynch, of the Twentieth street station-house and sobbingly averred that her fiance was held in durance vile by his sister, Miss Judge. Even to the sergeant t was clearly a case of Miss-Judgment.

"Can't you go with me and get him?" plead Sarah. The Sergeant gently explained to the tearful bride that was to have been that he had

no jurisdiction. "We were going to get married this evening, and I waited for him at the church, and the priest was all ready, and Martin didn't come. Poor fellow, he couldn't. His sister had given him hquor and was keeping him

fast in a room. Can't you get him for me?"

The Sergeant couldn't and Miss Burke de-

parted in a state of dismal sorrow. This morning an Evening Wonto reporter called at the family residence of the Burkes, 451 East Sixteenth street, third floor, front, to see how the fair Earah was bearing up. Master Patrick Burke, a young gentleman of fourteen years, whose hair was as short as it could be made without injury to the roots, was the only member of the household at home. He delivered himself with much volubility on the subject of his sister's marriage, and fully shared the objections to the marriage which are entertained by the Burke and

udge families. "I don't want her to go," he said. "She's the only one to tidy up the house."

From the somewhat dishevelled air of the rooms, it was but too evident that Sarah's gentle hands had done no tidying for some time. Pat was induced to seek his sister and ask an audience of her for the reporter. After some moments' absence, he came

upstairs followed by two young girls, one

upstairs followed by two young girls, one with blonde locks and the other a pretty brunette with a bang and a tip-filted nose.

"That's her." Pat said, pointing a somewhat disciainful finger at the latter.

"How about Martin Judge, Miss Burke?" asked the reporter.

"Oh, we were married at 7 o'clock this morning," she replied with animation. "Martin came around here early, and we went to the church, and Father O'Callaghan married us. She was best girl," Mrs. Judge continued, locking at her companion, "and her name is Katic Barrett. Martin's cousin was best man. I'm just back."

Sarah did not have a very pronounced bridal air. She was attired in a wine-colored dress, and her dark locks, were slightly frowzy. Her brother Pat, and a small girl, who had inserted herself into the group, stood on the stairs and interpolated unpleasant remarks, which visibly ruffled Mrs.

Judge's temper.

Judge's temper.

"Was Martin under the influence of liquor quired the reporter.
"Oh, he was a little full," said Sarah, airily. "He was paralyzed drunk," said Master

"He was paralyzed drunk," said Master Pat, unfeelingly.

"Shut up! What's the matter with you?" eried Mrs. Judge, sharply. "They're my brother and sister," she added, but whether as introduction or as a statement objurgatory of its very nature under the circumstances, the reporter had to conjecture.

"He was sober all right this morning." she went on. Mrs. Judge's back hair came down at this juncture, and she proceeded to do it up, continuing her conversation for two or three minutes with five hairpuns between her rosy lines.

three minutes with five hairpins between her rosy lips."

"I'm glad I've got a man that can make a living for me. There's the ring," and ahe displayed with witely dignity a plain gold circle on her third finger.

"Where is Mr. Judge? Why didn't he bring you 'round?" inquired the reporter.

"Oh, he had to go to work. He is a laborating man." The reporter congratulated the young bride, and on his way downtown called on Father O'Callaghan, who said, sure enough, that he had married the pair at 7.30 o'clock.
